Check List

- Please fill out the Machine repair request form with customer instructions and return it with the machine. Please be specific about the problem with your machine. The technician will only go by what is written on this form.
- REMOVE!!!!** The enhancer tank, diverter and adapters, etc. (Enagic will not be responsible and will not replace these items. No exceptions!) Enhancer damage occurs in the machine when leaving the electrolytic enhancer fluid in the tank or moving the machine together can cause damage to the machine. Improper handling can cause liquids to leak inside the machine and damage the internal parts. **This is not covered under warranty.**
- Pack the product well to avoid damages during transportation. Physical damage is not covered by the warranty.

Terms and Condition:

I have read and complied with the instruction checklist provided by Enagic. I understand that if the machine is determined by Enagic Technician to require work that is not covered under warranty, shipping charges will be apply. I agreed that Enagic is only responsible to follow the repair request as written on this form. Its customer responsibility to provide a clear description of the problem with customer machine. Enagic technician will attempt to clarify any issue presented on this form and not responsible for errors resulting from misdescribed by customer. I agreed and allow to do deep cleaning of machine without prior notification to customer/me if technician determines that the unit is not working properly due to calcium formation inside. I agreed that if the machine is not covered under the warrnaty period, machine service Labor charges will be applicable as per the repairing terms and conditions. (Labor charges will be applied depending on the repair work of the machine). I hereby agreed to above terms & Condition, machine repair instruction and declare that the details furnished above are true and correct to the best of my knowledge.
